

When someone visits our website, we collect standard internet log information and details of our visitors behaviour patterns. The information we collect does not identify anyone, and we do not make any attempt to find out the identities of those visiting our website. Any data gathered will not be associated with personal information. If we do want to collect personally identifiable information through our website, we will be up front about this. We will make it clear when we collect personal information and will explain our intentions with said information, unless you login or provide personal data through your use of this website.

What is a Cookie?

A Cookie is a text-only string of information that a website transfers to the Cookie file of the browser on your computer's hard disk so that the website can remember who you are. The information stored in a Cookie can only be read by the website that placed the Cookie or other sites that it has agreed to share information with. A Cookie will typically contain the name of the domain from which the Cookie has come; the "lifetime" of the Cookie; and a value, usually a randomly generated unique number.

Our policy on Cookies

Our policy is to use Cookies only to improve the way we do business with current and potential new members, or when they are essential to the way the site works. The types of activities we may use Cookies for are to:

- store details that help you to manage accounts online, such as user login details
- find out how people use our sites, such as how often they visit, which pages they go to, and which links they click on, so that we can improve our sites
- help us to provide relevant information, such as details of products, services and other information that you may be interested in.

How to refuse use of Cookies

You may refuse the use of Cookies by changing your internet browser settings to disable the use of Cookies. Please note that a refusal to accept the use of Cookies may result in the loss of useful functionality of the site; you may experience slower running times and you may not be able to access all website content.

How to disable Cookies in your browser

The use of Cookies can be prevented by changing your internet browser settings. Each browser has a different procedure for disabling the use of Cookies. If you would like further information on Cookies, please go to www.allaboutCookies.org.
